Welcome to the new Delphos Country Club Newsletter. We hope you enjoy the information included on this season summary. It is our plan to bring you regular newsletters starting with the beginning of the 2025 golf season to keep you informed on the events, projects and improvements at DCC.

SEASON REVIEW

As the 2024 golf season winds down, the Delphos Country Club Managers would like to thank our shareholders, members and guests for their support. It has been another successful year which included several member events, outside outings, a great deal of non-member play, hosting seven local high school golf teams and over 70 juniors attending the program directed by Trevor Thomas, our PGA Professional. Thanks to Mike Fast and his staff, the condition of the course was outstanding all season.

2024 ADDITIONS AND IMPROVEMENTS

Hopefully you have noticed many improvements and additions to the facility this year. A few are listed here and a complete list will be provided at the annual shareholder's meeting in April.

1. Bunker repairs were made and sand added on hole #16 and the fairway bunker on hole #6.
2. Prisms were added to the flagsticks to make it much easier to determine yardage when using laser range finders.
3. New mats for the driving range teeing area.
4. A cart turnaround behind #1 tee to make it easier to return to the parking lot without driving on the grass.

5. A new Short Course on the front nine marked by yellow discs on the right side of each fairway for our younger members that are new to the game. It can also be played by other golfers as a par 3 course if you are looking for a quick nine or just want to work on your short game.
6. All the low spots on the course were filled, leveled and seeded by Jay Kundert.
7. A new DCC website is now live for your use and information.
8. After many hours of work, a major improvement was made by Jerry Vetter and Red Menke in repairing the drainage tile that crosses holes #16, #14 and #13. It is our hope that this will eliminate the flooding and water standing on these holes after heavy rains.
9. A new cart exit was established to the left of the 18th green which will allow carts to stay off of the grass surrounding the green.

2025 COMING IMPROVEMENTS

Here is a partial list of some of the upcoming Improvements for 2025:

1. An addition to the maintenance barn that will allow us to store our additional carts and provide more room for our current equipment and additional work space which is desperately needed by our maintenance staff.
2. A change to the driving range tee that will direct golfers more to the range landing area and away from the entrance drive and the river.
3. New forward tees on holes #5, #15 and #16.
4. Additional sand bottles so all our carts will have sand available on both sides of the cart.

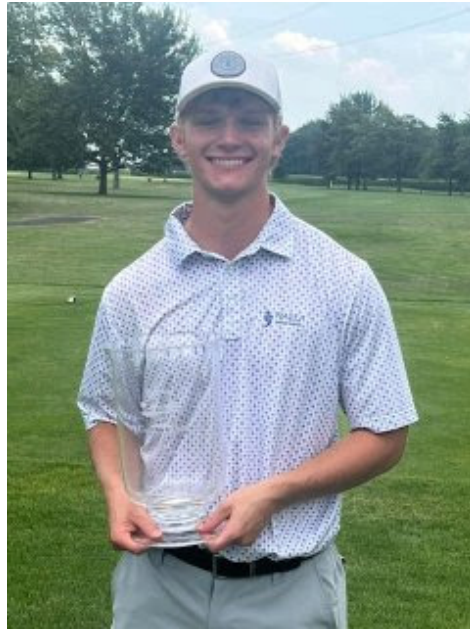

MEMBERSHIP REMINDERS

If you pay your 2025 membership before the end of November, you will receive a 5% credit to your course account.

If you have any friends or relatives that live 20 miles away or 40 miles away and they like to play DCC a few times a year, be sure to tell them about our long distance memberships that are available at substantial discounts. With these special memberships, they could play unlimited times with carts and be eligible to play in all membership events including the Calcutta.
